

FAIR & Nordic Battery Belt Logistics Final conference 2022/09/20-21

Welcome to Skellefteå, a true pioneer-city in the field of electrification!

PROGRAMME

ROUGH DRAFT, a more detailed program and speakers will be announced later.

Venue: Sara Kulturhus, Skellefteå.

Moderated by Anna Måtts-Fransén.

September 20th 2022

9.30–12.30 Study visit 1 (Northvolt/Skellefteå Airport) (Identical to the study visit 2 Sept 21st)

12.30–13.30 Lunch

13.30–17.00 Welcome

“Mother Of Invention” – Inspiration speech by Katrine Marçal

The project Nordic Battery Belt Logistics – Presentations and panel discussion

19.00 Conference dinner, Sara Kulturhus, Skellefteå

September 21st 2022

8.30–12.00 European/national strategies for sustainable aviation

The project FAIR (Finding innovations to Accelerate the Implementation of electric Regional aviation) – Presentations about the future of regional aviation, the proposed actions and reflections

12.00–13.00 Lunch

13.00–16.00 Study visit 2 (Northvolt/Skellefteå Airport) (Identical to the study visit 1 Sept 20th)

About the study visit 1&2

Northvolt was founded with the mission to build the world’s greenest battery. With a minimal carbon footprint and the highest ambitions for recycling to enable the European transition to renewable energy.

Northvolt’s first large-scale battery factory is currently being established in Skellefteå, with the first cell assembled in late 2021. As a part of a raw material and mining cluster, Skellefteå has a long history of process manufacturing and recycling.

During the Northvolt visit you will hear more about the establishment and the next steps in the journey. Please note that it is not possible to enter the site. We will visit a viewing point next to the site and drive around the area with the bus.

The study visit includes also a visit to **Skellefteå Airport** and **Green Flight Academy**. With 1 MW charging capacity installed, Pipistrel electric airplanes on-site and the world’s most sustainable flight academy, Skellefteå is a pioneer in the field of electric aviation. More details about the visit on the airport will be announced later.
